DermaRiteMedical™

MEDICAL GRADE HONEY DRESSING

DERMAHONEY™ TULLE

NON-ADHERENT FINE MESH IMPREGNATED WITH DERMAHONEY SOFT

FOR LOW TO MODERATELY DRAINING WOUNDS

℞ Only

Product Composition: Key Features

- **Non-adherent, fine mesh** impregnated with L-Mesitran Honey Soft
- **40% Medical Grade Honey,** enhanced with
  - Vitamins C & E
  - Medilan™ hypoallergenic medical grade lanolin
  - PEG-4000 and propylene glycol
- **Not made with natural rubber latex**

Product Composition: Key Benefits

- **Enhancements make it more effective** than non-supplemented honey
- **Faster healing** compared to honey alone[1,2]
  - **Vitamins C & E** enhance the healing effect of honey
    - Anti-inflammatory benefits
    - Supports collagen synthesis and tensile strength
    - Promotes better epithelial cell migration
  - **Medical-grade lanolin, PEG-4000 and propylene glycol** support moisture balance and autolytic debridement
- **Osmotic action of Medical Grade Honey** facilitates autolytic debridement
- **Enhanced formulation** addresses concerns of cytotoxicity and pain associated with other honey products
- **Low pH inhibits bacterial growth,** helps reduce wound odor
- **Fine mesh is versatile,** and allows exudate to pass through to the secondary dressing

Wear Time

- **Dressing change frequency** will depend on the condition of the wound as well as the level of wound exudate. Reapply when the gel is no longer visible or as directed by a wound care professional.

Indications

- Pressure Ulcers Stage 2, 3, 4
- Partial and full thickness wounds
